WEEK OF JANUARY 18, 2011 THROUGH JANUARY 24, 2011

WEEKLY ROAD CONSTRUCTION/CLOSURE ACTIVITY REPORT

(Miami, January 14, 2011) --

## DRIVE SAFELY!

### SPECIAL EVENT:

No Special Event planned for this week on the Venetian or Rickenbacker Causeways.

### RAILROAD CROSSING CLOSURES:

No Railroad crossing planed for rehabilitation this week.

### ROADWAY CONSTRUCTION/CLOSURE ACTIVITIES:

#### **SW 48th Street to SW 55th Street from SW 96th Avenue to SW 104th Avenue**

**Public Works Project No. 20100425:** Work included in this contract consists of performing all operations necessary for the construction and installation of drainage structures, exfiltration drains, grading, sodding and miscellaneous roadway restoration items related to drainage work. Construction is anticipated to be completed by February 28, 2011. **Detour:** Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs or detour route.

#### **Coral Gables Waterway Bank Stabilization Project - Phase VIII; SW 67th Avenue to SW 75th Avenue from SW 57th Avenue to SW 64th Avenue**

**Public Works Project No. 2010507:** Work under this Contract shall include, but is not limited to performing all operations necessary for the restoration of degraded canal embankments along the canal's right-of-way or maintenance easements. Work may include but shall not be limited to one or all of the following general tasks: Clearing, grading, excavating, placement of backfill, installation of riprap boulders and or sand cement riprap, repairs to drainage outfall headwalls, installation of miscellaneous drainage structures, relocation and repair to existing guardrail and sodding as needed. Construction is anticipated to be completed by April 30, 2011. No mainline road closing foreseen, therefore no alternate route is necessary.

**Coral Gables Waterway Bank Stabilization Project - Phase IX; SW 67th Avenue to SW 75th Avenue from SW 57th Avenue to SW 64th Avenue**

**Public Works Project No. 2010508:** Work under this Contract shall include, but is not limited to performing all operations necessary for the restoration of degraded canal embankments along the canal's right-of-way or maintenance easements. Work may include but shall not be limited to one or all of the following general tasks: Clearing, grading, excavating, placement of backfill, installation of riprap boulders and or sand cement riprap, repairs to drainage outfall headwalls, installation of miscellaneous drainage structures, relocation and repair to existing guardrail and sodding as needed. Construction is anticipated to be completed by April 30, 2011. No mainline road closing foreseen, therefore no alternate route is necessary.

**Coral Gables Waterway Bank Stabilization Project - Phase X; SW 67th Avenue to SW 75th Avenue from SW 57th Avenue to SW 64th Avenue**

**Public Works Project No. 2010509:** Work under this Contract shall include, but is not limited to performing all operations necessary for the restoration of degraded canal embankments along the canal's right-of-way or maintenance easements. Work may include but shall not be limited to one or all of the following general tasks: Clearing, grading, excavating, placement of backfill, installation of riprap boulders and or sand cement riprap, repairs to drainage outfall headwalls, installation of miscellaneous drainage structures, relocation and repair to existing guardrail and sodding as needed. Construction is anticipated to be completed by April 30, 2011. No mainline road closing foreseen, therefore no alternate route is necessary.

**SW 62nd Avenue from SW 24th Street to NW 7th Street**

**Public Works Project No. 20060469:** Will improve safety, mobility and access with the addition of traffic calming improvements, lighting, sidewalks, drainage system on-street parking, school bus loading zone and landscaping. This roadway construction project along 62 Avenue from NW 7th Street to SW 24th Street (Coral Way), half of the road is closed while the drainage is installed. Construction is anticipated to be completed by March 31, 2011. **Detour:** Motorists are advised to seek alternate routes or follow maintenance of traffic (MOT) signs or detour route.

**SW 62nd Avenue from SW 64th Street to SW 70th Street**

**Public Works Project No. 20090095:** Traffic Operational Improvements on SW 62nd Avenue from SW 64th Street to SW 70th Street. This roadway improvement project include total reconstruction of the traffic lanes with a center median that contains left turn bays, bike lanes, curb and gutter, sidewalk, continuous drainage system, pavement markings & signage, and signalization. The westside of the roadway is closed during Phase I of the project for the install the drainage system. Construction is anticipated to be completed by May 31, 2011. **Mainline Closure:** Motorists are advised to seek alternate routes or follow maintenance of traffic (MOT) signs or detour route.

**SW 72nd Street to SW 80th Street and SW 49th Avenue to SW 52nd Avenue**

**Public Works Project No. 20090027:** The scope of work consists of, but is not limited to, the following: adjustment of valve boxes and manholes; milling and resurfacing; and pavement markings. Construction is anticipated to be completed by March 31, 2011. **Mainline Closure:** This is a moving operation and temporary lane closures will impact traffic at times. **Detour:** Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs or detour route.

**SW 94th Avenue from SW 8th Street to SW 15th Street**

**Public Works Project No. 20100372:** Work included in this contract consists of performing all operations necessary for the construction and installation of drainage structures, exfiltration drains, grading, sodding and miscellaneous roadway restoration items related to drainage work. Construction is anticipated to be completed by January 31, 2011. **Detour:** Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs or detour route.

**SW 95th Street from SW 107th Avenue to SW 117th Avenue**

**Public Works Project No. 20090107:** The scope of work consists of, but is not limited to, the following: adjustment of valve boxes and manholes; milling and resurfacing; and pavement markings. Construction is anticipated to be completed by February 28, 2011. **Mainline Closure:** This is a moving operation and temporary lane closures will impact traffic at times. **Detour:** Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs or detour route.

**SW 129th Avenue and SW 50th Lane**

**Public Works Project No. 20090106:** Will improve safety traffic conditions at SW 129th Avenue and SW

50th Lane. Construction is anticipated to be completed by February 28, 2011. Working Hours will be Monday to Friday from 9 am to 4 pm. No mainline road closing foreseen, therefore no alternate route is necessary.

**SW 132nd Avenue and SW 74th Street**

**Public Works Project No. 20090106:** Will improve safety traffic conditions at SW 132nd Avenue and SW 74th Street. Construction is anticipated to be completed by January 31, 2011. Working Hours will be Monday to Friday from 9 am to 4 pm. No mainline road closing foreseen, therefore no alternate route is necessary.

**SW 136th Street from US-1 to SW 82nd Avenue**

**Public Works Project No. 20100388:** The scope of work consists of, but is not limited to, the following: adjustment of valve boxes and manholes; milling and resurfacing; and pavement markings. Construction is anticipated to be completed by March 31, 2011. **Mainline Closure:** This is a moving operation and temporary lane closures will impact traffic at times. **Detour:** Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs or detour route.

**SW 142 Avenue to SW 144 Avenue from SW 96 Street to SW 104 Street**

**Public Works Project No. 20090171:** Work included in this contract consists of performing all operations necessary for the construction and installation of drainage structures, exfiltration drains, grading, sodding and miscellaneous roadway restoration items related to drainage work. Construction is anticipated to begin on May 31, 2011. **Detour:** Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs or detour route.

**SW 147th Avenue from SW 152nd Street to SW 184th Street**

**Public Works Project No. 20100387:** The scope of work consists of, but is not limited to, the following: adjustment of valve boxes and manholes; milling and resurfacing; and pavement markings. Construction is anticipated to be completed by February 28, 2011. **Mainline Closure:** This is a moving operation and temporary lane closures will impact traffic at times. **Detour:** Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs or detour route.

**SW 147th Avenue from SW 200th Street to SW 248th Street**

**Public Works Project No. 20100388:** The scope of work consists of, but is not limited to, the following: adjustment of valve boxes and manholes; milling and resurfacing; and pavement markings. Construction is anticipated to be completed by February 28, 2011. **Mainline Closure:** This is a moving operation and temporary lane closures will impact traffic at times. **Detour:** Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs or detour route.

**Oakbrook Drainage Improvement Project Phase I, II, and III - SW 160 Street to SW 180 Street from SW 102 Avenue to SW 112 Avenue**

**Public Works Project No. 20090234:** Work under this Contract shall include, but is not limited to, the following: Furnishing all supervision, labor, materials, equipment and tools and performing all operations necessary for the construction and installation of drainage structures, French drains, miscellaneous drainage improvements, grading, sodding and miscellaneous roadway restoration, including construction of concrete curb and gutter and sidewalks where needed, in accordance with the construction plans and specifications contained herein. Construction is anticipated to be completed by August 2011.

**Old Cutler Road Bike Path Phase I from SW 216 Street to SW 63rd Avenue**

**Public Works Project No. 20090238:** The Old Cutler Road Bike Path project will re-construct approximately 6 miles of 8-foot-wide Bike Path along historic Old Cutler Road from SW 216th Street to SW 67th Street. The work includes, but is not limited to, curb and gutter; installation of remedial drainage along the corridor as necessary; relocate and/or resurface segments of the Bike Path; prune tree roots and place root barriers to prevent future damage to the Bike Path; install 6' high fence adjacent to environmentally protected areas; construct eight (8) trail turn outs along the path; and install traffic signs and pavement markings for motorists, bicyclists and pedestrians. Construction is anticipated to be completed by January 31, 2011.

**SW 216th Street from US-1 to SW 112th Avenue**

**Public Works Project No. 20090225, Work Order No. 3:** The scope of work consists of, but is not limited to, the following: adjustment of valve boxes and manholes; milling and resurfacing; and pavement markings.

Construction is anticipated to be completed by January 31, 2011. **Mainline Closure:** This is a moving operation and temporary lane closures will impact traffic at times. **Detour:** Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs or detour route.

#### **SW 264th/268th Street and SW 137th/147th Avenue**

**Public Works Project No. 20090225, Work Order No. 2:** The scope of work consists of, but is not limited to, the following: adjustment of valve boxes and manholes; milling and resurfacing; and pavement markings. Construction is anticipated to be completed by January 7, 2011. **Mainline Closure:** This is a moving operation and temporary lane closures will impact traffic at times. Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs or detour route.

#### **Drainage Improvements for the Brickell Area**

**Public Works Project No. 20100406:** This Drainage Improvement Project includes the construction and installation of drainage structures, french drains, miscellaneous drainage improvements, grading, sodding, and miscellaneous roadway restoration including construction of curb and gutters, sidewalks where needed in accordance with the construction plans and specifications. These drainage improvements will take place within the following corridors: South Miami Avenue from SW/SE 10 Street to SW/SE 14 Street and SW 2 Avenue from SW 9 Street to SW 11 Street. Construction is anticipated to be completed by March 31, 2011. **Mainline Closure:** Temporary and partial closure of lanes along South Miami Avenue from SW/SE 10th Street to SW/SE 14th Street and SW 2nd Avenue from SW 9th Street to SW 11th Street while construction of the drainage system is ongoing. **Detour:** Motorists are advised to seek alternate routes or follow maintenance of traffic (MOT) signs or detour route.

#### **Rickenbacker Causeway West Fishing Pier Demolition**

**Public Works Project No. 20100402:** Work under this project consists of the complete demolition of the existing Rickenbaker Causeway West Fishing Pier. This demolition includes all of the bridge elements and attached appurtenances such as utilities, luminaries, the necessary preparation, transportation and placement of the demolition material in the Artificial Reef. The project will also provide a new electrical connection from the William Powell Bridge to the fender system located underneath the bridge. No mainline road closing are foreseen, therefore no alternate route is necessary. Construction is anticipated to be completed by April 30, 2011.

#### **Venetian Causeway Bridges Rehabilitation**

**Public Works Project No. 20070776:** The twelve (12) existing bridges are located Venetian Causeway, between North Bayshore Drive and Purdy Avenue will be rehabilitated. Two (2) of these twelve (12) bridges are bascule spans. These repairs include the arch beams, deck slabs, diaphragms and piers. The project once completed will eliminate the loading restriction for vehicular traffic and enhance safety for the public and marine traffic. Construction is anticipated to be completed by May 31, 2011. **Mainline Closure:** Temporary lane closure along the Venetian Causeway will be in effect while the contractor continues to rehabilitate the twelve bridges. No mainline road closing are foreseen, therefore no alternate route is necessary.

#### **NE 16th Avenue from NE 151st Street to NW 159th Street**

**Public Works Project No. 20100488:** The scope of work consists of, but is not limited to, the following: adjustment of valve boxes and manholes; milling and resurfacing; and pavement markings. Construction is anticipated to be completed by February 28, 2011. **Mainline Closure:** This is a moving operation and temporary lane closures will impact traffic at times. **Detour:** Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs or detour route.

#### **NE 18th Place from NE 211th Street to NE 214th Terrace**

**Public Works Project No. 20090027, Work Order No. 8:** The scope of work consists of, but is not limited to, the following: adjustment of valve boxes and manholes; milling and resurfacing; and pavement markings. Construction is anticipated to be completed by January 31, 2011. **Mainline Closure:** This is a moving operation and temporary lane closures will impact traffic at times. **Detour:** Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs or detour route.

#### **NE 159th Street from NE 6th Avenue to North Miami Avenue**

**Public Works Project No. 20100387:** The scope of work consists of, but is not limited to, the following: adjustment of valve boxes and manholes; milling and resurfacing; and pavement markings. Construction is anticipated to be completed by April 30, 2011. **Mainline Closure:** This is a moving operation and temporary

lane closures will impact traffic at times. Detour: Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs or detour route.

**Midway Pump Station - NW 10th Street to the North, NW 7th Street to the South, NW 78th Avenue to the East, and NW 84th Avenue to the West**

**Public Works Project No. 20080069:** Work under this Contract shall include, but is not limited to the following: Furnishing all supervision, labor, materials, equipment, tools and performing all operations necessary for the construction and installation of stormwater pump station, including emergency generator and associated drainage piping, to supplement the neighborhoods drainage system currently in place. Work also includes horizontal directional grading, installation of sand cement riprap, sodding, and miscellaneous roadway restoration including construction of concrete curb and gutters, and sidewalks where needed. No mainline road closing are foreseen, therefore no alternate route is necessary. Construction is anticipated to be completed by January 7, 2011.

**NW 10th Avenue and NW 32nd Street**

**Public Works Project No. 20090313:** Will improve safety traffic conditions at NW 10th Avenue and NW 32nd Street. Construction is anticipated to be completed by January 31, 2011. Working Hours will be Monday to Friday from 9 am to 4 pm. No mainline road closing foreseen, therefore no alternate route is necessary.

**NW 10th Avenue and NW 50th Street**

**Public Works Project No. 20090314:** Will improve safety traffic conditions at NW 10th Avenue and NW 50th Street. Construction is anticipated to be completed by February 28, 2011. Working Hours will be Monday to Friday from 9 am to 4 pm. No mainline road closing foreseen, therefore no alternate route is necessary.

**NW 22nd Court from NW 128th Street to East Golf Drive**

**Project Public Works Project No. 20100550:** This Drainage Improvement Project includes the construction and installation of drainage structures, french drains, miscellaneous drainage improvements, grading, sodding, and miscellaneous roadway restoration including construction of curb and gutters, sidewalks where needed in accordance with the construction plans and specifications. Construction is anticipated to be completed by February 28, 2011. **Detour:** Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs or detour route.

**NW 32nd Avenue from North River Drive to NW 41st Street**

**Project Public Works Project No. 20090107:** The scope of work consists of, but is not limited to, the following: adjustment of valve boxes and manholes; milling and resurfacing; and pavement markings. Construction is anticipated to be completed by February 28, 2011. **Mainline Closure:** This is a moving operation and temporary lane closures will impact traffic at times. **Detour:** Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs or detour route.

**NW 32nd Avenue from NW 71th Street to NW 79st Street**

**Project Public Works Project No. 20100388:** The scope of work consists of, but is not limited to, the following: adjustment of valve boxes and manholes; milling and resurfacing; and pavement markings. Construction is anticipated to be completed by January 31, 2011. **Mainline Closure:** This is a moving operation and temporary lane closures will impact traffic at times. **Detour:** Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs or detour route.

**NW 77th Court from NW 168th Street to NW 168th Terrace**

**Public Works Project No. 20100550:** This Drainage Improvement Project includes the construction and installation of drainage structures, french drains, miscellaneous drainage improvements, grading, sodding, and miscellaneous roadway restoration including construction of curb and gutters, sidewalks where needed in accordance with the construction plans and specifications. Construction is anticipated to be completed by February 28, 2011. **Detour:** Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs or detour route.

**NW 77th Avenue to NW 87th Avenue between NW 170th Street to NW 186th Street**

**Public Works Project No. 20100388:** The scope of work consists of, but is not limited to, the following: adjustment of valve boxes and manholes; milling and resurfacing; and pavement markings. Construction is

anticipated to be completed by March 31, 2011. **Mainline Closure:** This is a moving operation and temporary lane closures will impact traffic at times. **Detour:** Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs or detour route.

**NW 78th Avenue to NW 82nd Avenue from NW 200th Street to NW 200th Terrace**

**Public Works Project No. 20090027, Work Order No. 5:** The scope of work consists of, but is not limited to, the following: adjustment of valve boxes and manholes; milling and resurfacing; and pavement markings. Construction is anticipated to be completed by February 28, 2011. **Mainline Closure:** This is a moving operation and temporary lane closures will impact traffic at times. **Detour:** Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs or detour route.

**NW 108th Street from NW 7th Avenue to NW 10th Avenue**

**Public Works Project No. 20100388:** The scope of work consists of, but is not limited to, the following: adjustment of valve boxes and manholes; milling and resurfacing; and pavement markings. Construction is anticipated to be completed by January 31, 2011. **Mainline Closure:** This is a moving operation and temporary lane closures will impact traffic at times. **Detour:** Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs or detour route.

**NW 151st Street from South Biscayne River Drive to I-95**

**Public Works Project No. 20100427:** The scope of work consists of, but is not limited to, the following: adjustment of valve boxes and manholes; milling and resurfacing; and pavement markings. Construction is anticipated to be completed by April 30, 2011. **Mainline Closure:** This is a moving operation and temporary lane closures will impact traffic at times. **Detour:** Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs or detour route.

**Highland Lakes Phase IV Project - NE 207 Street from NE 20 Place to NE 22 Court**

**Public Works Project No. 20100412:** The design of the above site shall include, but is not limited to, all operations necessary to raise the area's drainage to meet County standards. The work shall consist of installing drainage structures, exfiltration drains, grading, sodding and roadway restoration, including construction of concrete curb and gutter and sidewalks, as applicable, where drainage was installed. Construction is anticipated to be completed by February 15, 2010. **Detour:** Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs or detour route.

**San Simeon Way from NE 215 Street to NE 205 Street**

**Public Works Project No. 20100599:** Work includes but is not limited to the installation of drainage structures to alleviate flooding problems within the project boundaries caused by an ineffective drainage infrastructure. Proposed work includes the construction of an Exfiltration system to fully retain on site a 10-year storm event which is the design storm for arterial roads. Additional ancillary work includes construction and installation of drainage structures, French drains, miscellaneous drainage improvements, grading, sodding, and miscellaneous roadway restoration in accordance with the construction plans. Construction is anticipated to be completed by June 30, 2011. **Detour:** Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs or detour route.

**[American Recovery and Reinvestment Act \(ARRA\) Projects:](#)**

**Resurfacing Category:**

**SW 24th Street (Coral Way) from SW 57th Avenue to Segovia Circle**

**Public Works Project No. 20090056:** The scope of work includes but is not limited to milling, resurfacing, striping, installation of signs, upgrading pedestrian ramps and connectors to comply with Americans with Disabilities Act of 1990 (ADA) standards, upgrading damaged or outdated guardrails, and eliminating potential hazards along the specific corridors. In addition, pedestrian crossings will be upgraded to include pedestrian signal countdowns, push buttons and signs, as needed. Construction is anticipated to be completed by January 31, 2011. **Mainline Closure:** The milling and resurfacing portion is a moving operation and temporary lane closures will impact traffic at times. Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs.

**SW 56th Street from SW 67th Avenue to SW 57th Avenue**

**Public Works Project No. 20090110:** The scope of work includes but is not limited to milling, resurfacing,

striping, installation of signs, upgrading pedestrian ramps and connectors to comply with Americans with Disabilities Act of 1990 (ADA) standards, upgrading damaged or outdated guardrails, and eliminating potential hazards along the specific corridors. In addition, pedestrian crossings will be upgraded to include pedestrian signal countdowns, push buttons and signs, as needed. Construction is anticipated to be completed by January 31, 2011. **Mainline Closure:** The milling and resurfacing portion is a moving operation and temporary lane closures will impact traffic at times. Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs.

**SW 72nd Street from SW 57th Avenue to Old Cutler Road**

**Public Works Project No. 20090110:** The scope of work includes but is not limited to milling, resurfacing, striping, installation of signs, upgrading pedestrian ramps and connectors to comply with Americans with Disabilities Act of 1990 (ADA) standards, upgrading damaged or outdated guardrails, and eliminating potential hazards along the specific corridors. In addition, pedestrian crossings will be upgraded to include pedestrian signal countdowns, push buttons and signs, as needed. Construction is anticipated to be completed by January 31, 2011. **Mainline Closure:** The milling and resurfacing portion is a moving operation and temporary lane closures will impact traffic at times. Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs.

**SW 72nd Avenue from SW 85th Street to SW 72nd Street**

**Public Works Project No. 20090110:** The scope of work includes but is not limited to milling, resurfacing, striping, installation of signs, upgrading pedestrian ramps and connectors to comply with Americans with Disabilities Act of 1990 (ADA) standards, upgrading damaged or outdated guardrails, and eliminating potential hazards along the specific corridors. In addition, pedestrian crossings will be upgraded to include pedestrian signal countdowns, push buttons and signs, as needed. Construction is anticipated to be completed by January 31, 2011. **Mainline Closure:** The milling and resurfacing portion is a moving operation and temporary lane closures will impact traffic at times. Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs.

**SW 80th Street from SW 57th Avenue to SW 47th Avenue**

**Public Works Project No. 20090056:** The scope of work includes but is not limited to milling, resurfacing, striping, installation of signs, upgrading pedestrian ramps and connectors to comply with Americans with Disabilities Act of 1990 (ADA) standards, upgrading damaged or outdated guardrails, and eliminating potential hazards along the specific corridors. In addition, pedestrian crossings will be upgraded to include pedestrian signal countdowns, push buttons and signs, as needed. Construction is anticipated to be completed by January 31, 2011. **Mainline Closure:** The milling and resurfacing portion is a moving operation and temporary lane closures will impact traffic at times. Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs.

**SW 104th Street from SW 107th Avenue to SW 117th Avenue**

**Public Works Project No. 20090114:** The scope of work includes but is not limited to milling, resurfacing, striping, installation of signs, upgrading pedestrian ramps and connectors to comply with Americans with Disabilities Act of 1990 (ADA) standards, upgrading damaged or outdated guardrails, and eliminating potential hazards along the specific corridors. In addition, pedestrian crossings will be upgraded to include pedestrian signal countdowns, push buttons and signs, as needed. Construction is anticipated to be completed by January 31, 2011. **Mainline Closure:** The milling and resurfacing portion is a moving operation and temporary lane closures will impact traffic at times. Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs.

**SW 137th Avenue from SW 42nd Street to SW 26th Street**

**Public Works Project No. 20090123:** The scope of work includes but is not limited to milling, resurfacing, striping, installation of signs, upgrading pedestrian ramps and connectors to comply with Americans with Disabilities Act of 1990 (ADA) standards, upgrading damaged or outdated guardrails, and eliminating potential hazards along the specific corridors. In addition, pedestrian crossings will be upgraded to include pedestrian signal countdowns, push buttons and signs, as needed. Construction is anticipated to be completed by January 31, 2011. **Mainline Closure:** The milling and resurfacing portion is a moving operation and temporary lane closures will impact traffic at times. Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs.

**SW 168th Street from SW 107th Avenue to SW 97th Avenue**

**Public Works Project No. 20090117:** The scope of work includes but is not limited to milling, resurfacing,

striping, installation of signs, upgrading pedestrian ramps and connectors to comply with Americans with Disabilities Act of 1990 (ADA) standards, upgrading damaged or outdated guardrails, and eliminating potential hazards along the specific corridors. In addition, pedestrian crossings will be upgraded to include pedestrian signal countdowns, push buttons and signs, as needed. Construction is anticipated to be completed by January 31, 2011. **Mainline Closure:** The milling and resurfacing portion is a moving operation and temporary lane closures will impact traffic at times. Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs.

**SW 187th Avenue from SW 344th Street to SW 320th Street**

**Public Works Project No. 20090114:** The scope of work includes but is not limited to milling, resurfacing, striping, installation of signs, upgrading pedestrian ramps and connectors to comply with Americans with Disabilities Act of 1990 (ADA) standards, upgrading damaged or outdated guardrails, and eliminating potential hazards along the specific corridors. In addition, pedestrian crossings will be upgraded to include pedestrian signal countdowns, push buttons and signs, as needed. Construction is anticipated to be completed by January 31, 2011. **Mainline Closure:** The milling and resurfacing portion is a moving operation and temporary lane closures will impact traffic at times. Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs.

**SW 216th Street from SW 157th Avenue to SW 117th Avenue**

**Public Works Project No. 20090116:** The scope of work includes but is not limited to milling, resurfacing, striping, installation of signs, upgrading pedestrian ramps and connectors to comply with Americans with Disabilities Act of 1990 (ADA) standards, upgrading damaged or outdated guardrails, and eliminating potential hazards along the specific corridors. In addition, pedestrian crossings will be upgraded to include pedestrian signal countdowns, push buttons and signs, as needed. Construction is anticipated to be completed by April 30, 2011. **Mainline Closure:** The milling and resurfacing portion is a moving operation and temporary lane closures will impact traffic at times. Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs.

**SW 288th Street from SR 821 (Florida's Turnpike) to SW 132nd Avenue**

**Project Public Works Project No. 20090120:** The scope of work includes but is not limited to milling, resurfacing, striping, installation of signs, upgrading pedestrian ramps and connectors to comply with Americans with Disabilities Act of 1990 (ADA) standards, upgrading damaged or outdated guardrails, and eliminating potential hazards along the specific corridors. In addition, pedestrian crossings will be upgraded to include pedestrian signal countdowns, push buttons and signs, as needed. Construction is anticipated to be completed by February 28, 2011. **Mainline Closure:** The milling and resurfacing portion is a moving operation and temporary lane closures will impact traffic at times. Motorists are advised to seek alternate route or follow posted maintenance of traffic (MOT) signs.

**SW 320th Street from SW 192nd Avenue to SW 177th Avenue**

**Public Works Project No. 20090120:** The scope of work includes but is not limited to milling, resurfacing, striping, installation of signs, upgrading pedestrian ramps and connectors to comply with Americans with Disabilities Act of 1990 (ADA) standards, upgrading damaged or outdated guardrails, and eliminating potential hazards along the specific corridors.
